CNP Technologies invites you to our second annual Optimize Your Enterprise Technology Solutions Showcase. We will be showcasing the latest technologies in areas such as virtualization, mobility, storage, security, VoIP, WAN optimization and more - all geared to "Optimize Your Enterprise".

CNP represents leading companies in each technology category and we are pleased to bring them together for you in this unique showcase event. You will be able to talk with product specialists from each company and see how CNP integrates multiple products into valuable solutions for your business.

In addition to product displays and demonstrations, there will be breakout sessions that feature select products. These sessions will run throughout the event and will give you the opportunity to explore how the various technologies and products work together to form business optimizing solutions.

There is no charge for this event, however, [pre-registration](#) is required.

We look forward to seeing you there.
